

# PY413 Thermal EarL Spring 2026

Joshua H. Elkins

College of Sciences, North Carolina State University

February 18, 2026

## Introduction

This is Group X's report for the Thermal Physics Spring 2026 EarL in the Classroom. The report details the phenomenon of irregular temperature change which is being investigated, records a series of lab observations, provides an explanation of theory and models to explain the observations, and then poses a series of questions and answers to provide further analysis of the systems under investigation.
